HOW ERP IS MADE EASY WITH FORMEZY?

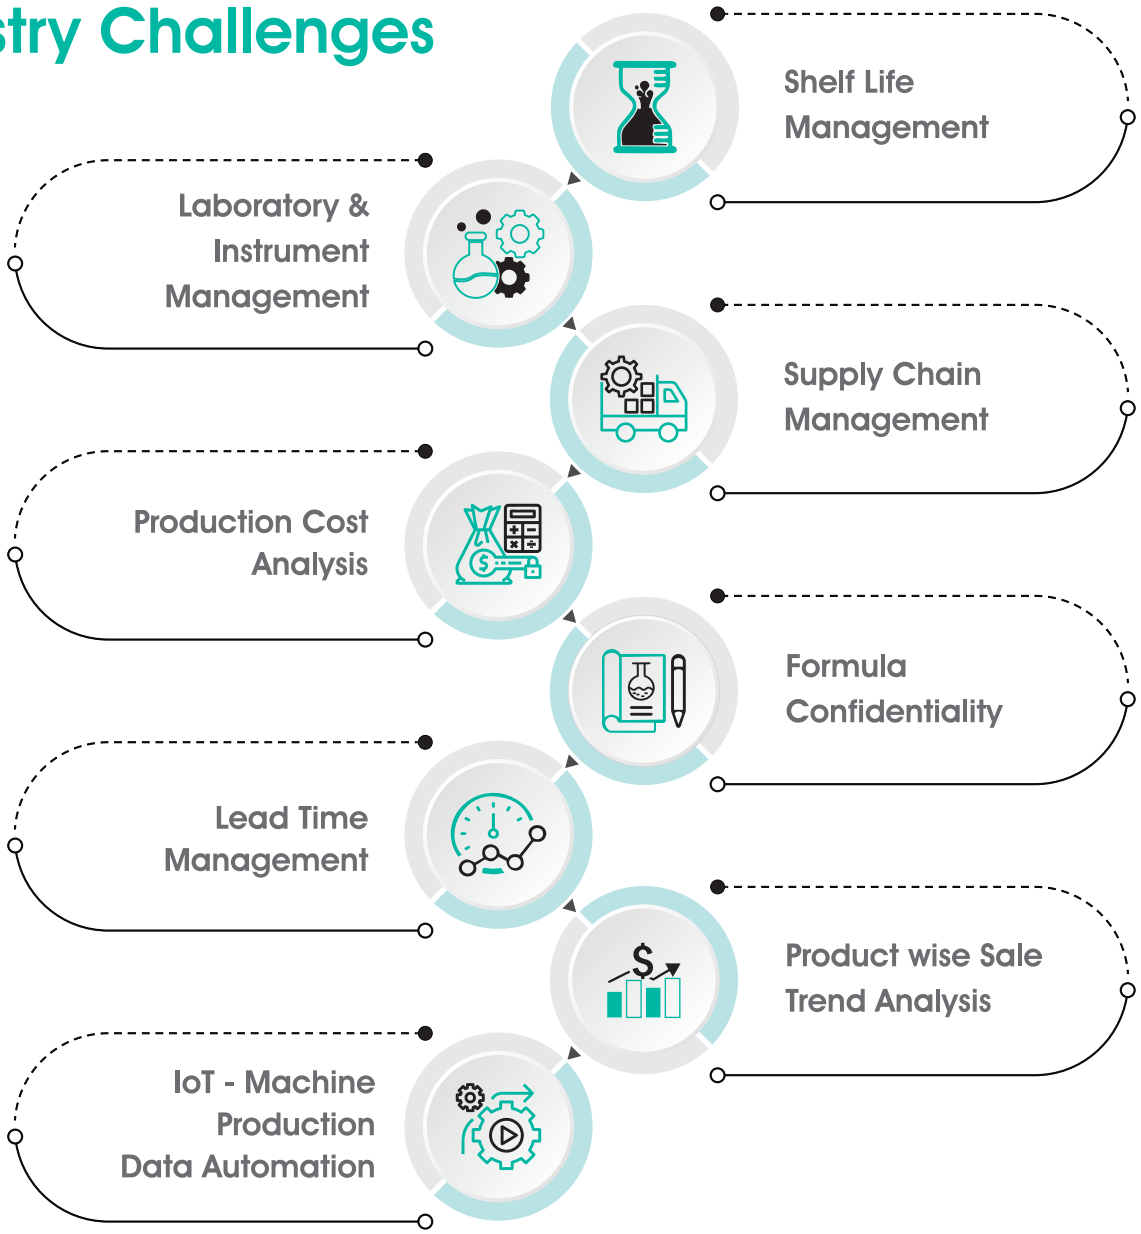

Formezy - Beyond ERP for Pharma Industry

While ERP manages operations, Formezy (ERP) goes further - bringing agility, control, and real-time visibility to complex engineering processes. It unifies workflows, projects, and data on a single platform, enabling scalable and efficient operations across organizations of any size.

Wide Range of Modules

- PROCUREMENT
- CRM / MARKETING
- PLANNING
- PRODUCTION
- INVENTORY
- QUALITY CONTROL
- R & D
- FINANCE CONTROL
- LOGISTICS
- MACHINE MAINTENANCE
- HR & PAYROLL
- IMPORT EXPORT

Industry Challenges

Systematic Operations with ERP in Pharma Industry

Formezy ERP systems are essential for optimizing operations and enhancing productivity in the chemical industry. Formezy offers customized chemical ERP solutions for all chemical manufacturing and processing companies. Here's how ERP benefits different sectors:

Pharmaceutical

Efficient Inventory Management
Real-time visibility into stock levels, expiration dates, and batch numbers optimizes inventory management.

Streamlined Manufacturing Processes
Integration of various functions like formulation management, production planning, and quality control.

Optimal Supply Chain Management
Provides end-to-end visibility and control over the pharmaceutical supply chain.

Financial Management and Cost Control
Centralizes financial data, automates accounting processes, and delivers accurate and timely financial reports.

Pharma Containers

Formulation
Material analysis and cost evaluation help manufacturers develop pharmaceutical containers with consistent quality.

Intellectual Property Protection
Manufacturers protect proprietary container designs and production processes from competitors effectively.

Standardization
Batch production processes maintain consistent dimensions, material quality, specifications, and traceability across every production run.

Quality Management
Quality management supports QC tests, SOPs, inspections, CAPA, compliance, and regular production audits.

Systematic Operations with ERP in Pharma Industry

Formezy ERP systems are essential for optimizing operations and enhancing productivity in the chemical industry. Formezy offers customized chemical ERP solutions for all chemical manufacturing and processing companies. Here's how ERP benefits different sectors:

Cosmetics

Serial Number and Lot Tracking
Our software simplifies inventory management with lot and serial number tracking in one platform.

Bill of Materials Management
The software supports both multi-level and single BOM structures.

Inventory Management
Get full visibility into item movement across the supply chain, from warehouse to customers.

Quality Management
Our ERP software manages minimum and reorder levels for each item, ensuring efficient order fulfillment and accurate delivery date allocation.

Ayurvedics

Formulation Management
Manufacturers can efficiently create and store recipes for various herbal and Ayurvedic products.

Batch Tracking
Ensure complete traceability and quality control with our robust batch tracking feature.

Compliance and Regulatory Support
Ensure effortless compliance with industry regulations.

Sales and Distribution
Manage sales orders, generate invoices, and streamline order fulfillment. Gain valuable insights into sales performance and customer preferences.

Quality Control
Implement stringent quality control measures throughout the production process.

Formezy: Your Comprehensive ERP Solution

Formezy: Empowering Business Excellence

Formezy is a comprehensive ERP system meticulously crafted to optimize your business operations. Equipped with a suite of robust features, Formezy empowers you to streamline processes, augment efficiency, and propel growth.

Customizable Source Code

Tailor DataNote to your specific business needs with customizable source code, ensuring a seamless fit for your organization's unique requirements.

Audit trail log management

Maintain data integrity with DataNote's audit trail log management, providing a comprehensive record of all system activities for accountability and transparency.

Global Reach with Multi-language Support

Eliminate language barriers and foster effective collaboration across diverse teams and regions with DataNote's comprehensive multi-language support.

Machine integration for real-time data

Extend DataNote's functionality by seamlessly integrating with third-party applications, optimizing productivity and workflow efficiency.

Claude AI Enabled Analysis

Leverage Claude AI to analyse business data, generate meaningful insights, and support smarter, faster decision-making with greater accuracy and efficiency.

Centralized Document Management

Organize and centralize your documents efficiently with DataNote's document management feature, facilitating information retrieval and collaboration.

Stay Connected with WhatsApp Alerts

Enhance communication and collaboration by staying connected with your team and clients through DataNote's seamless WhatsApp integration.

Easy data import feature

Migrate your existing data into DataNote effortlessly with our data import facility. Ensure a smooth transition without disruption to your operations.

Simplify Dynamic Tax Compliance

Simplify your dynamic tax compliance processes by integrating DataNote's GST and E-Way Bill features. Automate tax calculations and documentation for seamless compliance.

Ease in communication with Mailbox

Consolidate your communication channels with DataNote's mailbox integration. Centralize emails for efficient correspondence management and enhance collaboration.

Effortless Handling of Multiple Currencies

Simplify international transactions and expand your global reach with DataNote's multi-currency handling capabilities.

Flexibility Across Operating Systems

Access DataNote easily across various operating systems, ensuring compatibility and accessibility for all users.

Barcode and QR code integration

Enhance inventory tracking and management with DataNote's barcode and QR code integration, ensuring accurate stock management and efficient logistics.

Insights for Informed Decision-Making

Leverage the power of intelligent reports generated by DataNote to gain valuable insights into your business performance, enabling informed decision-making.

A Few of Our Customer's Insights

Client Name	: Renova Lifescience Pvt. Ltd.
Products	: Pharmaceutical Products Manufacturing
Locations	: 1 Factory & 2 Offices
Number of Users	: 50+
Client Since	: 2019
Departments of ERP	: CRM, Formulation, Sales, Procurement, Production, Finance, Quality, Logistics, Payroll

Client Name	: Multiplast Polymers Pvt. Ltd.
Products	: Pharma Packaging Bottles and Caps Products Manufacturing
Locations	: 1 Factory & 1 Office
Number of Users	: 150+
Client Since	: 2015
Departments of ERP	: Production, CRM, Maintenance, Sales, Procurement, Finance, Quality, Logistics

Client Name	: Remus Healthcare
Products	: Pharmaceuticals Products Exports
Locations	: 3 Offices
Number of Users	: 15+
Client Since	: 2022
Departments of ERP	: CRM, Sales & Marketing

Client Name	: Exechon (Cadila Group)
Products	: Pharmaceutical Packaging Products Manufacturing
Locations	: 1 Factory & 1 Office
Number of Users	: 75+
Client Since	: 2018
Departments of ERP	: Production, CRM, Sales, Inventory, Quality, Logistics, Jobwork, Finance, Maintenance

Client Name	: Anlon Medicos Pvt. Ltd.
Products	: Tablets, capsules, gels, creams, and ointments
Locations	: 1 Factory & 2 Offices
Number of Users	: 50+
Client Since	: 2024
Departments of ERP	: Sales, Procurement, Production, Finance, Quality, Logistics, Sampling, Inventory
